own a pretty little village can get
one cheap for cash. This place during five and forty years has not
the benefit of preliminary work, on
which more than hair a million doilars have been expended in wages
alone. The early difficulties of this
enterprise seem to have been due
to certain daring industrial innovations and a lot of "oppressive foreis
doing." There was bitter hostility
to inderfendent road-building. Mathem the same fate. Private lakes and fish
were barred. Plans of drainage met
the same fate. Private lakes and fish
ponds were taken for public use, and
a handsome deer park was dismantied. But the remedy is easy. The
purchaser should curl up and go to
sleep. His mere neglect will disarn
suspicion and hostility. Then the
natives themselves will get to work,
and their efforts and the trend of the
times will do the developing. The
place is still very much of a wilderness, yet it already enjoys nearly
every public convenience appertaning to an opulent city. No traffic
with agents. Apply by letter only
